# CARDS

## What is the ESC - European Student Card?

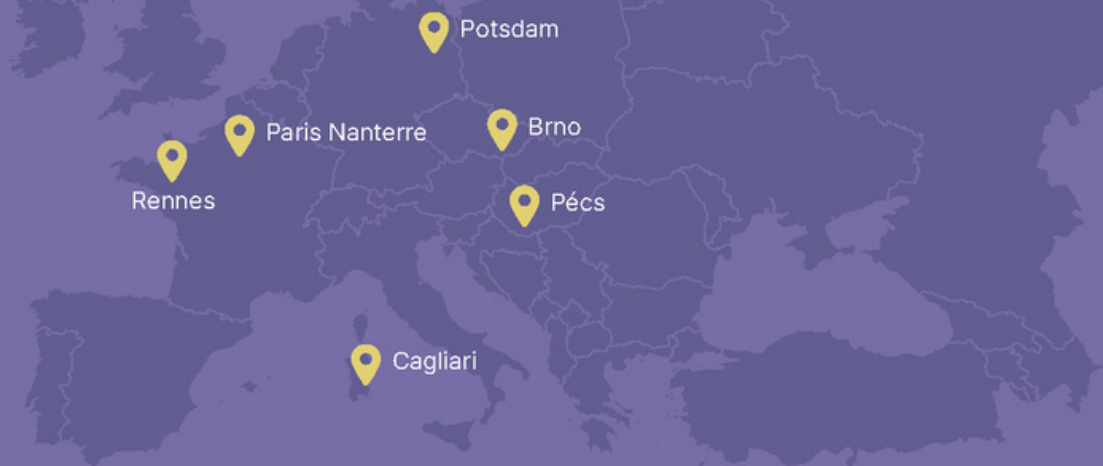

The ESC is not a new card, it's just your regular student card, but **upgraded with a European scope!**

The six partners of EDUC Alliance – European Digital UniverCity – create a truly integrated European University with students, researchers, and administrative staff who learn, impart and work at universities of Cagliari, Masaryk, Paris-Nanterre, Pécs, Potsdam and Rennes 1.

These EDUC Alliance universities created to implement the ESC together, so you, as a student can benefit from many advantages of the European Student Card among EDUC alliance but also accross the rest of Europe during your mobility.

@EDUCUniverCity

Co-funded by the  
Erasmus+ Programme  
of the European Union

## Principle: anywhere in Europe, your student status will be recognized

- A common graphic identity thanks to a European hologram on the student card, which allows a quick visual check
- A European Student Identifier (ESI) which identifies the student through all the applications and services developed, thanks to a European digital platform
- A QR code that certifies your "student status" and its validity via a smartphone or a simple QR code reader.

The purpose of the student card has always been to allow identification of student status. In recent years, most student cards have evolved becoming multi-service cards. Now, through the ESC not only student status and identity are recognized everywhere in Europe, but it can also allow you to get easy access to services without the need to register for a new card during your mobility.

After an experimental phase and as a 1<sup>st</sup> step, the card will allow you to register at any library and enjoy the services provided (book borrowing, online resources, WIFI, printing, etc.) in all the campuses of the EDUC Alliance.

## University Paris Nanterre

The University of Paris-Nanterre has dedicated itself to be an institution of learning and research whose defining characteristics are its vibrant campus life, educational innovation and scientific research with a social dimension. It is located to the west of Paris area, next to the largest business area in Europe called La Défense.

Students entering Paris Nanterre University will have access thanks to their european student card to the campus, the library and hopefully other services in the future such as sport activities
